THE PEOPLE HAVE A RIGHT TO VOICE AND COUNTERVOICE

~ No. 12/20: HYBRID WARFARE ~

### INTRO

Very few people are familiar with hybrid warfare – how could they be as it is not being perceived as such in every day's life. After all, the most cunning war is a war that is not felt as such, so that you are not able to defend yourself, and the worst enemy is the one who is not seen as such but rather considered as a friend. This issue of V&C is intended to show how extensively destructive and yet unnoticed it is although we are already

afflicted, even worn down, by hybrid wars. For this hybrid war has already claimed more casualties and deaths than all previous wars, including World Wars I and II. This issue briefly summarizes some of the main war scenes and enemies and encourages researching. For the problem is comprehensive and complex, it lives from "sleepiness", i.e. the unreflected cooperating of individuals. [1]

The Editors (hm.)

### • War scene: Health

**pwn.** A war against humanity is also taking place in the field of health. The corona virus, for example, is currently causing persistent panic and hysteria, however, out of proportion to proven victim-numbers. The consequences are pushing for new legal regulations, like mandatory vaccination, for instance, with the WHO being the driving force in this. Since its foundation, natural healing methods have increasingly been replaced

by chemicals and similar means. The pharmaceutical industry profits enormously from this. At the same time, the many side effects of medications and explicitly designed vaccines cause hidden eugenics (selection of species), birth control and thus a reduction of population, all serving a better control and global rule. This war scene with its countless victims needs to be ended! [4]

### • War scene: Nature

**doa.** The attackers in the field of nature come in the disguise of environmental and climate protection. However, the climate protection that is being pushed forward so vehemently rather seems to ruin the planet! There is a reason for true nature protectors to stand up worldwide against so-called climate protectors and climate protection projects, such as these giant wind turbines that disfigure entire landscapes. The long list of deterio-

rations ranges from dead birds to disease-causing infrasound to complete economic inefficiency because they do not replace a single power plant. Photovoltaic systems are increasingly taking over the fields of cereals crops. True protection of nature is subdued to alleged climate protection. The alert observer already sees the ever-increasing destruction of the habitat of humans, animals and plants. [6]

### • War scene: Demography

**cha.** What do the following things have in common? Gender mainstreaming, sexualization, the struggling of traditional role models, the promotion of abortion and sterilization, the weakening of the institution of marriage and the propaganda for homo- and transsexuality: Each of these measures serves the explicit aim of decimating, destabilizing and ultimately destroying the European peoples. Additionally, a foreign

population integration is taking place, European countries are flooded by – mostly young – refugees from war, whilst Europe's own population continues to die out. This aim – and there is evidence for that – can be found on the agenda of representatives of high finance that is consequently being carried out. – Consequent vigilance and informing, would, however, overcome this attack. [2]

### • War scene: National state

**mw.** National states have long been on the hit list of those striving for world dominion. In order to achieve this goal, so-called military and geo-strategists use refugees as a migration weapon to destabilize the national states. In order to prepare the ground for this, whole countries like Syria, Iraq and North Africa are being bombed to ashes under false pretexts. At the same time,

the same strategists spin their 'threads' to governments and especially to left-wing politics to create immigration incentives and legal foundations. While the national states are subsequently flooded with refugees, the helpfulness of the population is being abused without them realizing that this is trick of war, a weapon of war. [3]

### • War scene: Weather

**doa.** The hybrid weather-war is particularly devious because of the difficulty to pinpoint it. After all, who would think about war when it comes to earthquakes and tidal waves? But in 1996, a study of the U.S. Air Force described the weather as "force multiplier". In 2010, it was well observed how an artificially triggered earthquake not only spared the aggressor, the USA, to conquer the country with

military means; the USA even appeared to be the great savior. In the same way, forest fires, storms and floods are systematically triggered through so-called geo-engineering, resulting in political and economic changes. Unfortunately, however, most people are misinformed and therefore inclined to blame natural disasters on humans and/or see it as "a punishment from God" one has to accept. [5]

1970: "Technology will make available to the leaders of major nations, techniques for conducting secret warfare [...] techniques of weather modification could be employed to produce prolonged periods of drought or storm."

Zbigniew Brzezinski (1928–2017), security advisor of several US presidents

**Virus alert!** Countervoice web sites seem to be at high risk of virus attacks. Hand-to-Hand Express avoids this danger - information concise and to the point, without using the internet - Advice for all who still consult the links: never access the internet from a PC with sensitive data.

**You have important news?** Write a short Hand-to-Hand Express article. – Clearly state the major point and name the responsible people! – Sources if possible without internet! – Then send your short article to [SuG@infopool.info](mailto:SuG@infopool.info)

• War scene: Infrastructure and transport

mak. Why are large projects such as new railway stations and airports not being completed? Although they would provide opportunities for income and jobs, completion is vehemently prevented because of bureaucracy while pretending an envi-

ronmental protection. In the name of progress, autonomous driving, steered by an invisible apparatus, is made tasty to us. In the end, however, it all boils down to a deprivation of freedom through the destruction of individual road traffic. [7]

• War scene: Economy

cha. Currently, the theoretical fight against man-made climate change is an orchestrated attack on the Western economy. For example, vast sums of money are being invested in research into the allegedly CO2-neutral electric cars. Green areas are being used to install wind turbines instead of crops, which promotes the dependency on foreign producers. The economic operators have to comply with

increasingly grotesque requirements, which involve so many payments that many self-employed persons have to give up their businesses. With ever new laws, new taxes are being collected and the population is being compelled to buy new cars, heating systems and more. The string pullers in the background earn exorbitant amounts of money while the peoples are bleeding dry. [9]

• War scene: Energy supply

mak. Which type of energy is the best, the most environmentally friendly, nuclear power or coal? Natural gas from Russia or oil from the USA? While the citizens are kept busy with the pros and cons and even allow themselves to be divided by different views, Germany and other countries are almost imperceptibly robbed of the sovereignty of

their energy supply – without any bombs. As a result, these countries are bleeding dry, losing their self-sufficiency and self-control. But it is precisely these that must be defended more than ever against the string-pullers from high finance, these merciless operators of real wars and hybrid wars! [11]

**“Spread disunity and dispute among the citizens of the enemy’s forces.” (Separate and rule)**  
*Sun Tzu, Chinese war strategist, 534 - 453 BC*

• War scene: Food supply

ncm. The consequences of hybrid warfare in terms of food supply become obvious in the massive death of farms. New laws, regulations and directives are constantly being introduced by the EU with the tendency of promoting primarily large agricultural enterprises. Small scale farmers, on the other hand, cannot afford the often costly implementation of new regulations

and have to shut down their farm. As a consequence, more and more cheap, poor-quality products are being produced by huge agricultural corporations. But a large part of the people do not recognize this attack. Even bona fide politicians willingly implement this destructive agricultural policy in cooperation with those who know. [13]

• War scene: Education

cg. It is striking how our once high level of education steadily declined in quality in the recent years and how the intellectual abilities of the students have diminished. At the same time, our youngest children are even ideologically indoctrinated. The tools are dictated by the UN and implemented in educational institutions across countries. The areas range from kindergarten to inclusion, early sexualization, gender confusion, ethnic merging, all the way to digitalization. The consequences are that

the level of education is rapidly declining, and the sexual development of young people is being increasingly disturbed. The result is a population that is more and more easy to control and manipulate. Through mandatory digitalization, the ability to think and self-determination are completely being transferred to artificial intelligence, so that the “independently thinking human being” is becoming an obsolete model. Conclusion: Those who do not think in time will be robbed of their own thinking. [8]

• Impoverishment and enslavement

is. The hybrid tactic of war is currently destroying our economy worldwide in a targeted manner – with the ultimate goal of complete plundering, impoverishment and enslavement of all peoples. To name just two among thousands of similar hybrid moves: For more than 100 years, the high finance, i.e. the FED, which is authorized to counterfeit money, has been raking in billions in daily profits for no material return value.

Through ever more devilish derivatives, i.e. financial bets and stock market trickeries, the financial elites felted with her, are mercilessly pillaging all nations, deliberately driving them into ruin, into impoverishment – and into total enslavement! Does the current corona-pandemic maybe even have to serve as a purposeful cover-up for this worldwide financial collapse – a collapse caused by extreme, criminal financial betting? [10]

• War scene: Technologies

is. World-leading scientists have developed technologies for these warmongers with which they can steer all of humanity at will, make all people sick at will and even kill them: Atomic bombs, deadly viruses as biological

weapons of war, genetic technologies, surveillance devices on every corner and in space – and thousands of other things – are part of their standard equipment. [12]

**Closing Point •**  
*Hybrid threats are a global phenomenon. No state alone can get it under control. It needs the responsibility of the citizens, as well as intensive international cooperation. Moreover, early detection, an early warning system through well-founded information are needed! The citizens missed many chances, that is why the consequences are so extremely negative. But this war can be won: as soon as the people which are tormented by hybrid war see through the diabolic game and by the strength of their united will put an end to all diabolic works and by this the powers behind them.*
