### “Tsunami” of pornography

*sem.* The president of the association “Stop au porno”, Dr. François Billot de Lochner, addressed the devastating effects of porn consumption in a lecture at the 16th AZK on November 17th, 2018. The current “tsunami of pornography”, as he called it, destroys the personality of a person. Pornography reaches deep areas of the brain, where over-consumption leads to a disruption of dopamine release. Dopamine\* is responsible for basic human needs, including sexuality. As a consequence, more and more pornography has to be consumed in order to satisfy the needs. Pornography would also destroy social relationships and contacts, because women are seen as objects of pleasure and no longer as social partners. People who indulge in pornography would usually lock themselves up at home. Ultimately, the consumption of pornography would lead to a social “disaster” that destroys entire families. Pornography is a reason for divorces. Dr. François Billot de Lochner concludes by saying that: “Pornography is an absolute tragedy. It is a huge industry that generates wealth. On a moral level, it is an extraordinary means of destroying society.” [2]

### EU: Puppet masters and their puppets

*ol/tz.* According to analyst and financial expert Ernst Wolff, “The future of Europe is [...] not being decided in Strasbourg, but in Frankfurt and London, in the boardrooms of major banks, hedge funds and the European Central Bank”. But even in Brussels, the EU capi-

### Dangerous development through alleviating the last sexual taboos

*mse./ah.ag.* From March to September 2020 the “Deutsche Kitaleitungskongress” (German management congress of childcare centers) with many trend-setting lectures will take place in several German cities. Of the five given thematic areas, the first one is “Diversity in your childcare center”. Anyone who thinks that this is about a wide variety of creative activities for small children is mistaken. It is all about sexual diversity, with media impact embodied by the travesty actor Oliver Knoebel alias Olivia Jones. Knoebel runs a porn and karaoke bar and advertises it as “fun for the whole family”. As a speaker, what will be his contribution? The sociologist Prof. Dr. Gerhard Amendt\* is extremely

concerned: Under the guise of “sexual pedagogy of diversity, tolerance and gender justice” there would be more than “just” a pedophile program. According to him, it is a matter of the forced and deliberately massive influence and manipulation of kindergarten children and pupils, which will not tolerate any criticism and reach right into the families. Everything is aimed at blurring and transgressing the boundaries between generations and genders, in order to eliminate them completely. Those who agree with Knoebel's agenda might unknowingly promote the creeping endorsement of pedophilia and even incest. [1]

### Cell Phone & Co: Digital Drug for Children

*man.* Brain researcher Prof. Dr. Gertraud Teuchert-Noodt warns against serious consequences of technologies being used too early or incorrectly, such as tablets, mobile phones and Co: Digital media would act like a drug on the immature brain of children and thus over-stimulate it. This blocks the maturation of the brain that leads to fatal consequences in the development of intelligence. If children are to develop intelligence, any consumption of this drug – according to the brain researcher – poses a threat to their development.

If children were even given unhindered and permanent access to it, the effect would be as serious as if they were given a glass of alcohol every morning. With its 6-month free offer of the Disney+ streaming service, Telekom makes precisely this kind of drug appealing to children and is giving it free of charge. This can potentially turn them into regular Internet-dependent customers. It is also the responsibility of legislators to protect children from this unscrupulous abuse of power. Despite better knowledge, possible developmental disorders and drug addictions of children are accepted. [3]

Europe's most influential corporate leaders. Largely unnoticed by the public, they provide the EU with their own templates for drafting laws and ordinances. These forces from high finance and industry were probably very pleased that a man like Jean-Claude Juncker – who attracted public attention with alcohol problems – was in charge of the Commission. Whether the European citizen is now better served under the leadership of Ursula von der Leyen remains to be seen. After all, there are good reasons to suspect that she too – just like Juncker before – was deliberately put in office by the same forces that pull the strings in the EU. [4]

**Aviation security compromised?**

**mpu./pfk.** Early in 2020, reports of aircraft crashes or accidents were pouring in. What are the reasons for increased air traffic accidents? Recently KLa.TV received a report from an aircraft mechanic who observed the increasing exposure to electromog at his workplace over the years. He reports: "About eight to ten years ago, the radiation at my workplace was around 100-120 µW/m². In the following years the value rose to 300-485 µW/m². In the meantime, over 40 Wi-Fi routers have been installed in the halls. This has led to an increase in radiation with peak values up to 1500 µW/m² – I suffer greatly from its consequences." According to the Science Directorate of the European Parliament, 100 µW/m² should not be exceeded in places with long-term exposure. [...] Aviation requires a lot of controls, which means 100% of the work must be done in accordance with many regulations. How are the employees supposed to maintain this quality standard if they are permanently exposed to forced radiation? It has already been proven in countless scientific studies that mobile phone radiation mainly impairs concentration and performance. Due to the drastically increased radiation exposure, the quality of work may therefore no longer be fully guaranteed – and thus flight safety may no longer be guaranteed. [5]

**"Bill Gates' charities" - what do they really look like?**

**hub./avr.** Robert F. Kennedy Jr., founder and chairman of the Children's Health Defense\* organization is committed to ending epidemics of childhood diseases worldwide. In an interview, he criticized Microsoft founder Bill Gates' global immunization agenda. Bill Gates has been using a deceptive form of charity since 2000 to gain control over global health policy. This was confirmed for example by his investments in the use of vaccines in India. The polio vaccine to eradicate polio resulted in epidemic paralysis (NPAFP) in nearly half a million vaccinated children. The most shocking results were also in Congo, the

Philippines and Afghanistan where 70% of the world's polio cases were due to Gates' vaccines. Overall, many more cases of polio have been caused and reported globally. Despite these devastating results, Gates provided the WHO in 2010 with 10 billion Dollars for furthering vaccination programs. He was therefore accused of influencing the WHO to invest less in water, hygiene and nutrition for developing countries to contain infectious diseases. How charitable is that? [6]

**Annual weather change as justification for carbon tax**

**ol./abu.** Some mainstream media like "Der Spiegel"\* and MDR\* took the 25th world climate conference in December 2019 as an opportunity to paint a seemingly terrifying scenario about the Victoria Falls in Southeast Africa. With their report, "Der Spiegel" stirred up fear that the impressive waterfalls would dry out forever. The pictures shot during the driest month of the year – December – were used as alleged proof. They concealed that the river Zambezi, which feeds the waterfalls, carries very little water during this dry season every year. At the end of December, larger quantities of rain fall

again, the Zambezi fills up and its waters plunge forcefully into the depth as usual. "Der Spiegel" then mentioned in its report that according to the authorities of the country, the drought would be normal during this season. Nonetheless, the paper built up this spectacle in order to misleadingly establish a connection to human-induced climate change. This way and other similar ways are employed to legitimize further carbon taxes. Later on, "Der Spiegel" corrected its presentation – what may have induced it to do so? [8]

**What do 9/11 and Covid-19 have in common?**

**kbr./abu.** During the attacks on the World Trade Center on September 11th, 2001, the then US President George W. Bush and his entire crew fled in a plane. At the time, Bush's personal physician of many years, Dr. Richard Tubb, supplied them with an antidote to the anthrax pathogen. The fact that the attacks on the towers were followed by attacks with the anthrax pathogen became known to the world three weeks later. These "attacks" caused great panic and immediately led to massive civil rights restrictions and surveillance through the enactment of the USA PATRIOT Act.\* The doctor and former officer of the German Federal Armed Forces, Heiko Schöning, highlights parallels between 9/11 and Covid-19, when the world is currently experiencing massive civil rights restrictions and extended surveillance. He also proves that, just as for 9/11, a vaccine has already been developed for this purpose long before the "Covid-19 pandemic", with the significant involvement of Dr. Tubb. Heiko Schöning explicitly warns against an upcoming special vaccine that is to be administered to millions of people under constraint without being tested. He calls doctors and officers to their duty, to verify his statements and act for the benefit of the population! [7]

**String-pullers, watch out!**  
*No matter how much you pull on your "strings" to try to fulfil your plan. You won't really succeed. And if you are wondering now who can be so powerful to prevent you from doing so, we are happy to help you: You, yourself! For all misfortune is always falling back on the perpetrator. Do not hope to be the exception; you will only confirm the rule!* The Editors (wa.)
