

**STOP**

# MEDIA TERROR!

**Most mass media are amongst the most dangerous organizations worldwide because of the following:**

- The mainstream media have become compliant helpers to war mongers.
- Wars of aggression and the supply with military equipment are justified under the pretext of humanitarian goals.

**Hence, the mass media are responsible to a great extent for many wars!**

- Investigations over many years have shown that the highly praised diversity of media is a mere fake in order to mislead people.

- Moreover, the major part of mass media belongs to a very small number of people.
- In reality, the mainstream media are covertly positioned as the first and not the fourth or fifth power in a state.

*"The media in Western countries have become the greatest power in a state; they have become more powerful than the legislative authorities, police power and jurisdiction."  
Alexander Solschenizyn*

- On top of that, most people are not at all critical of what they are told. It can even be said that they are enslaved and addicted to these media. Most people trust them blindly.
- The main media have thus become a religion, a substitute for God. In short, they have become a life-threatening sect!

**More reasons why the mainstream media are particularly dangerous instruments:**

- Day by day, year after year, decade after decade they publish and spread countless defamations, slander and provable lies and deception. In most of these cases they all even proceed identically.
- Most of the mass media hold on to their untruthful reporting even after their lies have been disclosed and proven to be false.
- When victims of media lies demand their right to counter-statement at court, the media companies appear with the best lawyers money can buy and win the case.
- When those damaged by false reporting want to defend themselves with an account from an opposing point of view, they are usually not granted the right to do so. This often happens secretly and contrary to every apparently attested right.

## Are you a media victim, too?

Have you too been personally damaged by the mass media? If so, please let us know.

Do you have knowledge of topical and dangerous lies, spread by any of the mass media? Then please tell us about it.

Are you too annoyed by or sick of the media? If so, please consider becoming active in these new media chains at hand, based on new values. You are kindly invited to participate in this work on a voluntary basis.

In several countries and regions, our doors are open on Saturdays to newcomers. You will meet us in person and you will be able to become active with us if you wish.

Are you interested in this kind of endeavor?

If so, please send us your address and telephone number by email and mention 'become ACTIVE' in the subject line. We will then contact you personally. Thank you very much.

We are looking forward to receiving your email at:
